- LinkedIn: (to be filled in)

Summary/Objective

Highly motivated and detail-oriented AI Engineer with a strong background in machine learning, natural language processing, and generative AI. Proven ability to design, develop, and deploy scalable AI solutions that solve complex business problems. Proficient in modern web technologies and cloud platforms, with a strong passion for staying current with the latest advancements in AI/ML technologies.

Work Experience

- **AI/ML Intern** at **NCL - NED** (June 2025 – August 2025)
 - Designed and developed multiple machine learning projects, including a Unit Consumption Predictor using Time Series Analysis, Customer Churn Prediction, and Loan Approval Predictor.
 - Built and deployed NLP-based applications such as a Music Sentiment Analysis Tool and the Resume Analysis Hub.
 - Applied techniques like feature engineering, model evaluation, and performance optimization across various datasets.
- **Development Intern** at **CSIT Department – NED** (January 2025 – Present)
 - Collaborated with the department's tech team to develop and maintain internal web applications using Angular and MySQL.
 - Focused on front-end development and improving user experience, with an emphasis on responsive interfaces and high performance.
 - Participated in code reviews, testing, and documentation to ensure high-quality deliverables.

Education

- **Bachelor of Science in Computer Science and Information Technology** from **NED University** (Graduation Year: 2025)
- Relevant coursework: Machine Learning, Natural Language Processing, Computer Vision, and Web Development.

Skills

- **Technical Skills**
 - Programming languages: Python, JavaScript, TypeScript
 - Machine learning frameworks: scikit-learn, PyTorch
 - Cloud platforms: Azure
 - Containerization technologies: Docker
 - Data processing and ETL pipelines: Pandas, NumPy
 - Version control systems: Git
- **Soft Skills**

- Strong problem-solving skills
- Ability to work in a fast-paced environment
- Excellent collaboration and communication skills
- ****Tools & Technologies****
- Web development frameworks: Angular
- Database management systems: MySQL
- Data visualization tools: Matplotlib, Seaborn
- AI/ML libraries: HuggingFace, LangChain
