Summary/Objective

Highly motivated and detail-oriented AI Engineer with hands-on experience in designing, developing, and deploying machine learning models and AI systems. Proven ability to build scalable AI solutions using Python, TensorFlow, PyTorch, and scikit-learn. Skilled in data pipelines, model optimization, and cloud platforms. Seeking a challenging role where I can leverage my technical expertise to drive innovation and create meaningful impact.

Work Experience

AI/ML Intern

NCL -

- Designed and developed multiple machine learning projects, including a Unit Consumption Predictor using Time Series Analysis, Customer Churn Prediction, and Loan Approval Predictor.
- Built and deployed NLP-based applications, such as a Music Sentiment Analysis Tool and the Resume Analysis Hub.
- Applied techniques like feature engineering, model evaluation, and performance optimization across various datasets.

Development Intern

CSIT I

- Collaborated with the department's tech team to develop and maintain internal web applications using Angular and MySQL.
- Focused on front-end development, improving user experience, and optimizing UI performance for internal platforms.
- Participated in code reviews, testing, and documentation to ensure high-quality deliverables.

Education

- **Bachelor of Science in Computer Science and Information Technology** from **NED University** (Graduation Year: 2025)
- Relevant coursework: Artificial Intelligence, Machine Learning, Data Structures, Algorithms, and Web Development.

Skills

Technical Skills

- Programming languages: Python, JavaScript
- Machine learning frameworks: TensorFlow, PyTorch, scikit-learn

- Cloud platforms: Azure
- Data pipelines: ETL pipelines using Python and cloud platforms
- Model optimization: Techniques like feature engineering, model evaluation, and performance optimization

Tools & Technologies

- GitHub
- Git
- Python libraries: NumPy, Pandas, Seaborn, Matplotlib
- Deep learning libraries: HuggingFace, LangChain
- Containerization technologies: Docker

Soft Skills

- Strong problem-solving skills and ability to work in a fast-paced environment
- Excellent communication and collaboration skills
- Adaptable and proactive in learning new technologies and methodologies

Note that I have tailored the content to focus on the most relevant skills, experiences, and achievements from the original resume that align best with the job description. I have also ensured that the language is professional and directly targets the job description.
